

Childhood sexual abuse

About the workshop

This one-day workshop is suitable for professionals and individuals who wish to develop an understanding of childhood sexual abuse.

Delivery method

The workshop is delivered in an experiential style to give participants an in-depth understanding of the issue. It is delivered by professional counsellors with a high-level of experience in working with clients with this issue, and will draw upon their own expertise and working practice to complement the taught elements of the programme.

Learning objectives

On completion of this workshop participants will:

- Understand the principal immediate and long-term effects of childhood sexual abuse on victims/survivors and their families.
- Understand why so few children disclose abuse.
- Understand society's response to the issue of childhood sexual abuse and how this can affect a victim/survivor.
- Understand the silencing techniques used by abusers.
- Understand the levels of childhood sexual abuse existing in society, such as organised and Satanist abuse.
- Develop a range of strategies to help the participant to respond appropriately to a disclosure of childhood sexual abuse.
